

Company Profile

Diesel Power Services Limited is an Electro-Mechanical engineering company established in 1990 and has become specialized in power generator, marine generator, marine propulsion engine, electric / electronic design application and also involved in construction equipment / machineries for roads, buildings and material handling etc.

With 20 Years of experience, Diesel Power provides field oriented engineering service like installation, testing, trouble shooting, commissioning after sales service of Diesel and Gas generating sets having capacity from 20 KVA-3000 KVA with genuine parts backup support .

The Chairman & Founder of Diesel Power Services Limited, Mr. Tayeb Ahmed Khan Naseem has 36 of years experience in Cummins engine powered generating sets. He is a certified Cummins Service Engineer and has acquired various trainings from Cummins Asia regional office at Singapore. He is the pioneer in introducing and installing Cummins engine powered generating sets in Bangladesh. Now Cummins is a very popular brand in Bangladesh.

Diesel Power Services Limited was the authorized agent as a first local company in Bangladesh providing sales & services of Cummins Powered Generation from 1998~2005. In the year of 2000 for expanding services all over Bangladesh Diesel Power introduced environment friendly & fuel cost effective Cummins Powered Gas Generator. In 1998 Diesel Power first introduced Jakson Engineers Limited, India as Cummins OEM and worked as a distributor to promote their generating sets in Bangladesh. After completing the distributorship terms, in the year of 2005 Diesel Power has started to promote Cummins

from different Chinese OEMs. Now, Diesel Power is representing biggest manufacturing companies from China Cummins. Diesel Power authorized persons visit directly to Cummins OEMs factories for inspection their consignments.

Diesel Power's main object is to support the industrial and commercial sectors of our country to give standby power supply incase of non availability of power from national grid and also continuous power support avoiding the national grid.

Diesel Power always offers best solution to all valued clients at a competitive price with high standard quality generating sets & genuine parts.
